Hoffmann 3 may be used in MRI procedures under the specified conditions. There are factors that can influence these results like the number of pins used in the clamps and the number of open and closed loops in the frame. Therefore, it is recommended that each frame be evaluated by a radiologist or MR scientist before the MRI procedure to ensure patient safety. Since different frame ...

Solution (Chris Black) Solving each equation for  $y$ , we have the equivalent system  $y = 5 - x$   $y = 2x - 3$ : 1. 2 Robert Beezer xSSELE Setting these expressions for  $y$  equal, we have the equation  $5 - x = 2x - 3$ , which quickly leads to  $x = 3$ . Substituting for  $y$  in the first equation, we have  $y = 5 - 3 = 2$ . Thus, the solution is  $x = 3$ ,  $y = 2$ . (Chris Black) Find all solutions to the linear system:  $3x + 2y = \dots$
