Of interest to scholars and charity lawyers alike, The Public-Private Nature of Charity Law applies its unique lens both to traditional topics such as the public benefit rule and charity law's rules of standing, and to more contemporary issues such as the co-optation of charitable resources by threatened welfare states and the emergence of social enterprise.

[The Publicprivate Nature Of Charity Law](#)

The rule that an institution must be 'for the public benefit' in order to be charitable is both the most distinguishing, and the most controversial, substantive doctrine of the law of charities. In this piece I argue that the public benefit rule is a doctrinal hybrid, which feels the strength of public law and private law thinking in equal or near equal measure. I trace how the equilibrium between the doctrine's constituent public law and private law elements has changed in ...
